WORK EXPERIENCE

Mobile App Developer Intern
Kesko Oyj

06/2024 - 12/2024

Achievements/Tasks

- Created a performance tracking React-Native app for Kesko's freeze warehouse team.
- Worked as the lead intern developer to lead the team to successfully meet the technical requirements from the stakeholders.
- Built an backend in Node.js for data synchronization and user authentication.

PERSONAL PROJECTS

POST – Blogging Web Application ⤴
- Developed backend using Node.js and Express.js for handling of server-side operations.
- Integrated image uploads to Amazon S3 through presigned url that allows the frontend to upload directly to the bucket.
- Utilized Editor.js for creating organized and visually appealing blog content.

Tune - Music app ⤴
- Developed using HTML, CSS and Vanilla JS only.
- Single page application that handles different routes with Javascript. Configured Netlify to respond with the html file for all routes.
- During development used a Node.js server to serve the html for every route request.

The Hub – Movie and TV App ⤴
- Developed a Movie/TV app using React and TMDb API for data.
- Enabled search functionality using query parameters.

TRAINING

Frontend Developer Training Program
Kreativstorm

01/2024 - 02/2024   *Berlin, Germany, Remote*

Creative agency that specializes in developing innovative and strategic solutions for businesses

Tasks/Achievements

- Contributed to the development of impactful user interfaces using only HTML, CSS, and JavaScript, demonstrating fundamental knowledge as well as a keen eye for design and attention to detail.
- Gained practical experience working in a team environment, enhancing both core abilities and tech skills (git, GitHub).

EDUCATION

Business Information Technology
Laurea University of Applied Sciences

08/2023 - Present   *FInland*

Courses

- The focus is on developing digital services while considering crucial business aspects. I have learned the technical side of software development along with the business aspect and to merge them together to create innovative software solutions.
